

IT-3 Box of Nozzles

IceTech has introduced the IT3 Box of Nozzles as a supplement to its wide range of nozzle boxes. It includes the most commonly used types of nozzles, nozzle inserts and accessories and can be used together with **all IceTech dry ice blasting machines**.

Special Nozzles and Accessories

The IceTech blasting guns are modularly designed and can be combined with a broad range of nozzles and accessories. This makes them adaptable to suit each individual blasting application; therefore it is always possible to obtain maximum cleaning efficiency.

Storage of IT3 in the Machine

The IT3 Box is dimensioned to fit into the machine under the pellet tank of the new PROFESSIONAL models.
